

KIDS CAN CODE CAMP

In this 2 week course kids will learn the fundamentals of how to develop a website from scratch using a combination of HTML5, CSS3, and Java Script. When complete, each child will be able to write clean web code, solve basic website issues, and build their very own website front-end.

Age: 7– 15 years old

Cost: \$50.00/ child for full course

Dates: Monday, Wednesday and Friday

August 21st—September 1st

Time: 2pm—5pm

Registration is now OPEN

Call to reserve your child's space at 905-775-3328 ext 6100

Or register in person at the library.
